OBJECTIVE

Actively looking for a challenging contract or full time position as a Software Engineer that will allow me to purposefully grow in my career and unlock my potential.

WORK EXPERIENCE

Aspilos Foundation
(June 2022 — Present)

PROJECT OFFICER

• Monitored deadlines and milestones to keep team on track with project schedule
• Develop and manage detailed training curriculum, scheduling and evaluation.
• Implement the training on digital literacy and web development.
• Effectively participate in meetings, and collaborate with project team members, cross functional teams, partners and management to ensure project milestones and
deliverables are met.
• Provide regular feedback on workflow processes, and project performance to management.
• Promote and undertake the documentation of good practices and synthesis of lessons
learned, and ensure that these are reflected in improved training and management tools

Aspilos Foundation
(March 2022 — July 2022)

WEB DEVELOPMENT TUTOR INTERN

• Aid in teaching students front-end development using some basic React JS framework.
• Assist the Project Officer (Web development) in the
implementation of projects in the organisation's portfolio.

Raw Materials Research Development Council, Abuja
(February 2021 — 2021)

NATIONAL YOUTH SERVICE CORPS INTERN
